Plenty of shade if needed and large buildings in case of rain. The A. C. tractors as well as the other rubber-tired tractors all run. The 12 and 16 horse power Russell steam engines will be running Saturday morning. The 25 hp Russell needs work. The small gas engines for the most part are in running condition, but time may not allow for all to be running day of auction. Plan on attending. There may be items you have never seen before!
