Friday, October 9th @ 10:30AM • Expecting 1000 Head

Harvest is showing signs of significant progress. Yields are variable but probably better than we thought despite the significant dry weather. The feeder market has been very active and hopefully it will carry into 2021. As always, it's important to get your calf crop vaccinated. We always push the green tag program and most buyers are asking for a modified live vaccination program. Good luck with harvest and take it safe!
