Don't miss this outstanding auction featuring some of the top herds we sell for!  
All green tag vac & All weaned.

The reality of the grain markets has hit our feeder trade. I think back in 2011-2013 as the corn started trending pretty high the cattle started heading right up with it. Several things are different today. A big one is Country of Origin labeling. Packers didn't have it their way back then. Nowadays, thanks to big help from N.C.B.A., M-COOL is repealed and packers can continue to import more & artificially keep prices low. Please keep the pressure on our congressional leaders & maybe we can get something done on this & other pressing issues.

**FED CATTLE/WEIGH COWS TUESDAY, JAN 5TH:**

We had a really nice run of fed cattle on a market that was \$1 higher. Weigh cows lost some ground from the much higher trade during the holidays. Competition in the fed cattle sector is so important. Auction marketing is a vital tool in that process.

**FEEDER CATTLE AUCTION: TUESDAY, JAN 5TH & FRIDAY, JAN 8TH:**

We sold 4600 feeders this week over 2 auctions. The market is under pressure from the grains and honestly a fed cattle market that's been un-inspiring. Here are some actual sales from last week.
