Friday, Jan 8th, NOTE TIME @ 10AM **Expecting 3000 head**
All green tag vac & weaned. Quality outstanding

A customer came up to me Friday at our New Year's auction and told me that he thought the same people in charge of counting election votes are the same group that takes grain inventory & reports those figures to the government. It's amazing to think that we have a glut of grain this summer only to find out how short our figures are now. How convenient for the corporates to get a bunch of the grain tied up at figures 40-50% below what they are now? Somethings are a tad fishy! We have 2 fantastic cow auctions coming up in January. Don't miss them to add front end genetics to your herd. Pretty excited that my Cyclones won the Fiesta Bowl. Been waiting my whole life for this one!
